

PARTNER WITH SWIMLOADING

REACH THE PEOPLE WHO LOVE OPEN WATER.

SwimLoading is a community-led open-water swimming platform: real water temperatures, safety observations, swim spots, crossings and events, all shared by swimmers. Your brand, in front of a focused audience that actually cares.

763	127,000	2,445	210+
registered accounts	Google search impressions / 3 months	historical water temperature logs	swim spots across 16 countries

A FOCUSED AUDIENCE

NOT MASS-MARKET. MISSION-ALIGNED.

Our community is predominantly **South African**, with international visibility through swimming content and search. It began with swimmers sharing water temperatures and hazards, and has grown around what swimmers actually need. **Members do not need expensive wearables or GPS watches to benefit** — a small number of contributors creates information useful to many swimmers.

WHAT A PARTNERSHIP DELIVERS

Relevant brand presence

A dedicated partner page and contextual visibility on a specialist swimming platform.

Direct community communication

Newsletter and campaign features, where agreed, reaching an established opt-in audience.

Authentic activation

Challenges, giveaways, member benefits, product education and selected swimmer experiences.

Transparent reporting

Available measures of search visibility, email engagement and participation, with clear limitations.

Our proposition is meaningful access to a niche swimming community — not guaranteed product sales or guaranteed impressions.

YOU'D BE IN GOOD COMPANY

BRANDS ALREADY SWIMMING WITH US.

Nutrition, wetsuits, goggles, performance swimwear and recovery: specialist brands that chose a niche community over mass-market advertising. Each has a dedicated partner page on swimloading.com.

LIVE

Precision sports nutrition: gels and drinks engineered to fuel long open water swims. Monthly challenge prize.

LIVE

Evidence-based nutrition trusted by elite athletes. Gels, hydration and recovery for every swim.

LIVE

Wetsuits designed for open water swimmers. Warm, fast and built for South African conditions.

LIVE

Custom-fit goggles built from a 3D scan of your face. No leaks, no pressure.

15% UK DISCOUNT

Member benefit partner: 15% off goggles, training wetsuits and open water gear for UK and Channel Islands members.

LIVE NOW

Swim performance analytics, used by Kyle Chalmers, 14 national federations and 50+ NCAA colleges. Challenge sponsor (next page).

KIT ARRIVED

Italian performance swimwear. Sponsoring SwimLoading's own Carina Bruwer.

COMING SOON

Smart swim goggles with a heads-up display. Member discounts and a Smart Swim 2 prize on the way.

DISCOUNT COMING

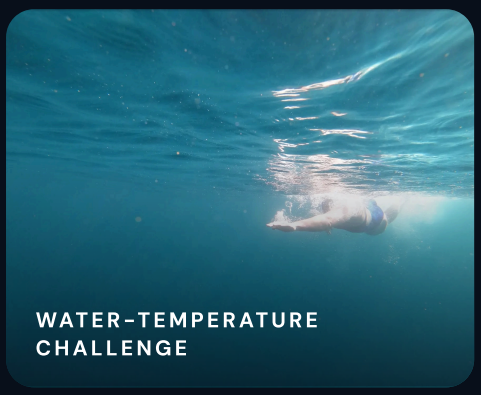

Official Therabody importer and distributor in South Africa. Member discount being set up.

YOUR BRAND COULD BE NEXT

New partners are added as agreed deals are settled. See the ways to partner on page 5. Status as shown on swimloading.com, Oct 2026; offers vary by partner and region.

PROOF IT WORKS

A COMMUNITY ACTIVATION WITH MEASURABLE VISIBILITY.

THREE-MONTH CHALLENGE

US$1,350

SwimBETTER prize from EO Lab. The winner is drawn at the end of October 2026. It introduces specialist swimming technology to a community in which such a premium device would not ordinarily be a routine purchase.

CHALLENGE ACTIVITY · OCTOBER THROUGH 17 OCTOBER

163

temperature logs, **up 17%** vs the same period in September

26

contributors logging temperatures

4

swimmers qualified for the October draw at that date

DEDICATED PARTNER PAGE

Google Search Console, 3 months

Organic search impressions	**2,087**
Organic search clicks	**35**
Average search position	**6.6**

Product-related query sample **1,412 imp. · 22 clicks**

Product-related sample covers 10 displayed queries.

DIRECT COMMUNICATIONS

3 newsletters with challenge updates: Aug, Sep, Oct

Recipient totals, summed	**1,921**
Reported opens, summed	**974**
Recorded clicks, summed	**122**

Clicks are for all content, not EO Lab links specifically. Opens can be affected by automated privacy features. Summed figures are not deduplicated individuals.

These results show community activity during the sponsored period. They do not prove that the prize caused the increase in logging, or that search impressions led to product sales.

WAYS TO PARTNER

BUILT AROUND SHARED VALUE.

We work with brands relevant to swimming, outdoor adventure, safety, equipment, recovery and wellbeing. Members get genuine benefits, partners get credible exposure, and SwimLoading builds a sustainable platform.

01

COMMUNITY PARTNER

Listing and member benefit

A member discount, product benefit or occasional prize in return for a defined listing and relevant recognition.

02

FEATURED CAMPAIGN PARTNER

Activation, prize and spotlight

An agreed activation, prize or product contribution plus a marketing fee where appropriate. Includes campaign placement, newsletter exposure and summary reporting.

03

STRATEGIC PARTNER

Multi-month programme

A negotiated, paid multi-month programme with agreed deliverables, content and measurement.

HOW WE WORK

- Partner exposure is agreed in advance; product contributions do not imply unlimited promotional placements.
- We distinguish registered accounts, newsletter recipients, search impressions, clicks and actual community contributions.
- We do not guarantee purchases, conversions or unique audience reach without supporting measurement.
- We protect member trust: relevant brands, accurate product claims and useful community benefits come first.

LET'S DISCUSS A PARTNERSHIP

A community benefit, a featured campaign or a longer-term commercial partnership.

Data notes. Figures supplied from SwimLoading's internal dashboard, Google Search Console and email campaign reporting, viewed 17 October 2026. Search metrics cover approximately 15 July–14 October 2026. The indexed-page count is a point-in-time Search Console measure. Registered accounts are not equivalent to monthly active users. All campaign deliverables and commercial terms remain subject to agreement.
