Disclaimer

Colour: Due to screen representation, the colour you see on your monitor may appear slightly different to your final printed colour - A monitor starts in a black state and is illuminated with RGB (Red, Green and Blue) to produce colours. Printed colours are made up of either Pantone References or CMYK process colours (Cyan, Magenta, Yellow and Black). It is therefore of utmost importance that corporate colours be provided by the client before printing. Providing Pantone references ensures that the colours are printed as close as possible to your corporate colours.

A printed proof is advised for colour sensitive printing. In the event that a client is unable to supply a colour space, Wizardz will convert artwork to:

U.S. Web Coated (SWOP) v2 by default.

It is the client's responsibility to ensure that the proof is correct in all areas. **Please be sure to double-check spelling, grammar, layout and design before approving artwork.**

If a proof containing errors is approved by the client, the client is responsible for payment of all original costs of printing (design time, printing, and finishing if applicable) as well as the cost of corrections and reprints.

NO KNOWN COPYRIGHTED artwork or material will be printed without a signed indemnity form from client, the artist or holder of the trade mark. Wizardz will not be held responsible for any copyright infringements.

PLEASE NOTE: Delay in proof approval will result in delay of completed job.
